Trésors d'Orient *le Ramadan.*

"Il était plusieurs foi" de Monique Gilbert : connais-tu cet ouvrage sur les religions du monde ?

symbole du paradis dans l'Islam

Savais-tu que l'orange, le citron, l'abricot, la prune, la pastèque, le melon, etc, sont originaires d'Orient ?

"Ramadan" *est le 12° mois du calendrier lunaire musulman ; un mois saint dédié à l'introspection, la prière et la lecture du Coran, la générosité, mais aussi à l'ascèse physique et mentale, de l'aube au coucher du soleil : cela en vue d'une purification et d'une communion avec Dieu.*
Pendant un mois, ceux dont l'état et la situation le permettent passent le jour sans manger, boire, fumer ou vivre d'intimité. A la tombée du jour, on se rassemble pour partager temps et agapes de circonstance : fruits frais et secs, semoule, samoussas, pâtisseries orientales, kéfir, thé à la menthe, etc.

INSTRUCTIONS:

Cut out both circles on both pages. The circle on this page is supposed to be on top of the other circle, so on this circle you'll also have to cut the white triangle at the bottom, because that is where every phase of the moon will be visible later. After that, you put this circle on top of the other circle, and connect them together in the middle with the help of for example a folder clip (so that you can still spin it). After that, you can follow the phases of the moon and spin the wheel as the phases are changing during the month. Ramadan begins when the moon phase called Hilal appears.
