TRE-ADD Respite Program operates out of a spacious two story house located in a residential area. The house has six bedrooms each with its own bed, five bathrooms, and a large common area. There are many rooms that the children can choose from and enjoy activities. There is a Play/Sensory room on the bottom floor and a fenced in backyard with a trampoline. Parking is available in the driveway for families when dropping off or picking up their child.

TRE-ADD Respite Program is offered to children and youth up to the age of 18 with an Autism Spectrum Disorder who may have behavioural or complex needs. Clinical support is provided by the program's Behavioural Service Consultant. Respite program staff are formally educated and trained in the application of Applied Behaviour Analysis (ABA). The home uses an ABA approach with all aspects of programming with an emphasis on communication, life skills and recreational activities.

TRE-ADD Respite is available to TRE-ADD clients who are connected to Surrey Place Centre – TRE-ADD program.

TRE-ADD Respite is also available to youth 11-18 years of age living in Central West, Toronto, and Central East regions that have been referred by their regional planning committees.
