

# INDIVIDUAL'S LAUNDRY

1

Take soiled laundry from individuals room wearing current appropriate PPE and holding laundry/basket away from your body. Only one persons laundry at a time.

Put soiled laundry into washing machine. **DO NOT SHAKE** laundry. Ensure correct amount of soap and hot water is used

2

To transfer clean, wet clothes from washer to dryer. Ensure clean gloves and gown are donned prior to doing so. A disposable gown may be donned over top of a reusable gown to complete this task and then disposed of immediately after

3

Before removing clean laundry from dryer, ensure to don a clean disposable gown & clean gloves. **DO NOT TOUCH** soiled laundry while working with clean laundry. **DO NOT SHAKE** laundry at any time. Either fold pieces individually from the dryer or put into a basket & take to individuals room & fold.

4

5

Repeat steps for each load. Make sure you never go back ie: **DO NOT TOUCH SOILED LAUNDRY** when working with clean laundry. This is how cross-contamination occurs

Repeat
