

ACTIVE SCREENING QUESTIONS AND SCRIPT

The following questions are to be answered by **anyone entering a location** and recorded in the SWAS App prior to entering a CLTO location. **Also use the Rapid Antigen Testing spreadsheet to record when staff had their most recent Rapid Antigen Test.**

Where the SWAS App is not available, enter responses to the following questions in the Staff and Visitors Log.

1. Have you completed the Pre-Screening questionnaire, and as a result have you been asked to delay your work shift or visit?

If yes, delay entry. Review the response actions to the related question in the Pre-Screening questionnaire and take any required action.

2. Are you experiencing any COVID-19 symptoms? Have you travelled outside Canada in the past 14 days and/or have you been asked to quarantine or self-isolate at home for any reason?

If yes, delay entry and notify your immediate supervisor.

3. Are you fully vaccinated against COVID-19?

If No, and CLTO staff, remind the staff that they must adhere to CLTO's Staff COVID-19 Immunization Directive and always wear facial protection while indoors.

If No, and agency or third-party staff, do not permit entry and let the individual know that only fully vaccinated agency or third-party staff are permitted indoors at CLTO properties.

If No, and a visitor, ask the visitor to show evidence of a negative COVID-19 test dated within 24 hours of the visit. Evidence of a negative test will include a receipt of a PRC or Rapid Antigen Test (RAT), or a dated photograph of a home test. If the visitor is not able to show a negative COVID-19 test, inform the visitor that they will only be permitted to visit outdoors, and they must follow advanced PPE precautions throughout the duration of the outdoor visit.
