

Active Screening Questions

- 1. Have you completed the Pre-Screening questionnaire, and as a result have you been asked to delay your work shift or visit?**

If yes, delay entry.

- 2. In the last 10 days , have you tested positive for COVID-19? Or are you a “close contact” of someone (regardless of whether you live with them or not) who has tested positive for COVID-19 or has symptoms consistent with COVID-19?**

If yes, and a visitor, delay visit until you are past your isolation period and you are symptom-free.

If yes and CLTO staff, inform your supervisor and follow the CLTO Testing and Clearance Guidelines for Staff.

- 3. Are you experiencing any COVID-19 symptoms? Or has a health care provider, or public health unit told you that you should currently be isolating (staying at home) including quarantine due to travel outside of Canada?**

If yes, and a visitor, delay visit until you are past your isolation period and you are symptom-free.

If yes, and CLTO staff, inform your supervisor and follow the CLTO Testing and Clearance Guidelines for Staff.

- 4. (For visitors) Have you completed a Rapid Antigen Test (RAT) in the past 24 hours that had a negative result?**

If no, please self-administer a RAT provided by the screener. You will be required to show proof of a negative result prior to entry.
